ABOUT HPAT–ULSTER

Admissions testing for entry to degrees in the Allied Health Professions

Universities are increasingly moving to select students on the basis of a wider set of objective criteria than academic results alone. The use of a purpose-designed admission test assists in the process by providing evidence of skills and abilities that are not directly measured by academic results, but which are also very important to the work and effectiveness of a student and later practitioner in the health professions.

The use of a professionally developed and marked secure test, in combination with academic results, assists universities in selecting the most suitable students from a large pool of well qualified applicants.

Broadening the selection criteria to include performance on a test of reasoning and communication ability provides a means of recognising and valuing qualities and skills that are not specifically demonstrated in academic results. Skills in communication and understanding of people, as well as teamwork and information handling, are seen as essential attributes of a successful health practitioner.

Finally, the community expects that the health professionals of tomorrow will, in addition to having the necessary highly developed levels of skill within their field, be able to communicate effectively and relate to their patients.

The Health Professions Admission Test (HPAT–Ulster)

HPAT–Ulster is a professionally designed and marked selection test developed to assess aptitude for study in the Allied Health Professions. It has been designed in consultation with Ulster University to assess a range of attributes considered important to the study and later practice of the health professions. It is designed to complement academic achievement by providing assessment of skills in the areas of reasoning, understanding and working with people, and written communication. These skills have been identified as important for a competent health professional.

HPAT–Ulster is not based on any curriculum or body of knowledge and presumes no particular field or discipline of prior study.

HPAT–Ulster has a strong focus on general skills and personal abilities. It does not test knowledge of the basic sciences.

Please note:

If you are applying to one of the medical schools (i.e. National University of Ireland Galway, Royal College of Surgeons in Ireland, Trinity College Dublin, University College Cork, University College Dublin), you should be applying to sit HPAT – Ireland (which is a different test from HPAT–Ulster) at: hpat-ireland.acer.org

Structure and content

HPAT–Ulster consists of three sections, with a total test time of 3 hours. The first two sections are in multiple-choice format. The third section, Written Communication, is in the form of two essay tasks.

The following table shows the structure of HPAT–Ulster by section and time:

	Number of questions	Time in minutes
Section 1 Critical Reasoning	45	120
Section 2 Interpersonal Understanding	45	
Section 3 Written Communication	2	60

Critical Reasoning questions are drawn from a variety of general sources. The contexts in which questions are set include general interest, science and social science, with materials presented as text, diagrams, graphs and tables. Some questions may require basic mathematical skills. The emphasis is on the application of skills in reasoning and problem solving. Skills tested include the ability to work with and analyse stimulus material; pose and test hypotheses; interpret and extract information, and identify and evaluate evidence and lines of reasoning; identify a problem; analyse it to clarify key information; transform information into forms that can be applied to enhance problem solution, and identify, generate and evaluate possible solutions.

Interpersonal Understanding questions have a focus on working with and understanding people and consist of scenarios, narratives and dialogues with questions designed to assess the understanding of people; their motivations, behaviours and responses.

The two tasks in **Written Communication** consist of an exercise requiring synthesis of graphically presented information relating to social issues and a reflective essay. Each task is graded using a set of specifically designed assessment criteria. Assessment focuses on the way in which ideas are integrated into a purposeful and relevant response to the task.

You will not be assessed on the correctness of the ideas or attitudes you display. Each of your pieces of writing will be marked by at least two raters working independently.

Nor do they support any commercially available preparation courses or have any association with commercial courses. Thus the HPAT–Ulster office is unable to comment on their relevance or usefulness. Test taking strategy for multiple-choice sections

Questions in the HPAT–Ulster test are in multiple choice format. It is advantageous for you to develop your own strategies for answering this type of question. Each test section is separately timed. You are advised to work steadily through each section. It is not advisable to spend too much time on any one question. Read through all the alternative answers to a question, even if you think the first one is correct, before marking your chosen response. If you think you know the answer to a question, mark it, even if you are not certain. Go on to the next question and come back later if you have time.

Please note the following:

- All questions have the same value, therefore by attempting as many questions as possible you stand the best chance of maximising your score.
- No marks are deducted for a wrong answer.
- All questions are of equal value, but may vary in difficulty.
- If you mark more than one answer to a question it will be considered wrong.
- Answers should be marked directly onto the answer sheet, not in the test booklet. Answers marked in the test booklet will not be scored.
- You may do rough work in the margins of your test booklet. Scrap paper is not allowed.

ON TEST DAY

Test date

The HPAT–Ulster 2019 test is held on

Saturday 26 January 2019

This is the only opportunity to sit HPAT–Ulster in 2019 for 2019 admission to Ulster University Allied Health Professional courses.

Test centre and arrival time

The exact test centre address and arrival time will be printed on the Admission Ticket that will be available through your online account approximately one week before the test (see page 6). You must report to this test centre at the time designated on your Admission Ticket. It is not necessary to arrive before the indicated arrival time. The test itself will start as soon as all pre-testing procedures are completed. If you report to the centre after all candidates have been seated in the testing room, you may not be admitted.

No latecomers will be admitted once reading time has commenced.

Timing and order of the test

The HPAT–Ulster test consists of 3 hours testing time. In addition, pre-testing procedures will take some time to complete. **Therefore, it is not possible to guarantee start and finish times.** Care should be taken when making return travel arrangements to allow adequate time at the test centre. **You should anticipate being at the test centre for up to 4 ½ hours.**

HPAT–Ulster is a high stakes test administered under secure test conditions. **You may not leave the test centre before the full testing time has elapsed.** Candidates leaving early will not receive their HPAT–Ulster scores. Once a candidate has departed the test centre it is not possible to re-enter and continue the test. **You may use the bathroom during testing time, but this will not be permitted during reading time and in the last 10 minutes of each section (Section 1 and 2, and Section 3).** No additional time will be granted for bathroom breaks.

Identification on the test day

On the day of the test you will be required to show one form of photo-bearing identification. The only acceptable forms of ID are:

- a current passport
- a current photo-bearing driver's licence
- an Electoral Identity Card
- an Irish Public Services Card

The photograph in your identification document must be recognisable as a likeness to you as you are on the day of the test.

If you do not possess a current passport, a driver's licence, an Electoral Identity Card or an Irish Public Services Card you must obtain a certified letter of identification from your school or other educational institution. The letter must be on official letterhead and must contain your name; date of birth; a passport photo glued to the letter with institution stamp *overlapping*; signature and title of the official verifying the identification; and your signature. A sample letter of identification is provided on the HPAT–Ulster website and you are strongly advised to use this template to avoid any problems on the day.

If you do not have one of these forms of identification, please allow enough time to organise one before the test date as you will not be able to enter the test centre without an approved form of identification. Some of these identification documents can take approximately a month to obtain.

Digital formats of identification, student cards and/or documents that have expired will NOT be accepted under any circumstances. Photocopies of identity documents are also not acceptable forms of ID.

Your date of birth, first and last name in your identification document must match your Admission Ticket details.

If you do not present one of the above identification documents, together with your printed Admission Ticket, you will NOT be able to sit the HPAT–Ulster test and your registration fee will be forfeited.

What to bring on the test day

You need to bring the following with you on the test day:

- Your printed HPAT–Ulster Admission Ticket filled in and signed (Note: Admission Tickets presented on electronic devices will not be accepted)
- Acceptable current and photo-bearing identification document as specified on page 9
- Pencils (medium soft No. 2 or HB recommended)
- Eraser
- Blue or black pen
- Pencil sharpener (optional)
- A clear water bottle

Clocks are provided in the test room. You may wear a wristwatch, however any alarm or stopwatch features must be switched off. Smart watches are not prohibited.

These will be the only items allowed on your desk during the test. Mobile phones must be switched off before entering the test centre. Valuables such as wallets, keys and mobile phones (switched off) may be placed under the desk during the test. Mobile phones must not be worn on your body and must not be accessed during the test.

You are advised to bring only essential items, as neither the test centre nor the HPAT–Ulster Office can be held responsible for the security of your belongings. There will be limited space to store your bags and you will not be allowed to access your bags until the lunch break.

Note: All other items, including but not limited to calculators, pagers, stopwatches, audio or recording devices of any kind, MP3 players, digital watches, smart watches, activity trackers, note paper, coloured pens/pencils, pencil cases, highlighters, and rulers are not permitted.

Access to food (including sweets and nuts), earplugs, medication or other medical equipment (e.g. support cushion) during the test will only be permitted due to a medical condition and can only be allowed if you have been granted testing conditions for candidates with specific additional needs (see page 5).

It is recommended you have a meal before reporting to the test centre and take a snack to eat in the registration queue if you cannot wait until the end of the test.

Large spaces like test centres can be difficult to heat/cool. To avoid being too cold or too hot, it is

recommended to wear layers, which will allow you to adjust your own comfort level.

Answer sheets

Sections 1 and 2 of HPAT–Ulster are in multiple-choice format. You will mark your answers by filling in ovals on a machine-readable answer sheet. It is very important that you record your answers carefully, by completely filling in the oval in pencil. If you decide to change an answer, erase it completely and mark the oval corresponding to your new choice. See example ovals below.

Mark your answers directly onto the HPAT–Ulster answer sheet and not in the test book. **Answers marked in the test book will not be scored.** Any rough work may be done in the margins of your test book. Scrap paper is not allowed. Do not write on your Admission Ticket.

It is very important that your handwriting is clear and distinct in Section 3. You will disadvantage yourself if your writing is illegible.

Test day issues

Should you wish to query a particular test question on the day of the test, please alert the supervisor of your concern and submit a written note before you leave the test centre. Your query will be reviewed by the HPAT–Ulster and you will be notified of the outcome. Similarly, any complaints relating to the test venue or physical discomfort suffered should be reported immediately to the supervisor on the day so the issue can be addressed without delay.

Security

The HPAT–Ulster test is a high stakes test. Therefore ACER, in conjunction with Ulster University, has established security procedures which will be strictly enforced at all times.

It is also possible and you consent to the misconduct being referred to Ulster University or other third party to whom such misconduct might be of interest.

YOU ARE PUT ON NOTICE that except as expressly provided at law, there is no right to challenge, appeal or seek review of any determination by ACER that misconduct has occurred or in relation to any consequences imposed by ACER for any misconduct. You should also be aware that your misconduct might also give rise to liability on your part to third parties, including but not limited to Ulster University.

AFTER THE TEST

HPAT–Ulster results

HPAT–Ulster results will be available in late March 2019.

You will be notified via email when results are available through your online account. You can only access your Statement of Results online and are advised to save and print a copy of the Statement of Results for your records. Statements of Results are accessible for two years in your online account. Statements of Results include your date of birth and name used at the time the HPAT–Ulster test was taken. Replacement Statements of Results will not be provided to accommodate a subsequent change of name. No hard copies of the Statement of Results will be sent to candidates. Ulster University will verify the results used for applications with ACER.

The HPAT–Ulster scores

You will receive four scores; one for each test section (with a separate score for each of the Written Communication tasks), and an Overall Score that is an average of the three section scores. To assist you in evaluating your test performance, you will also be given a percentile ranking for your Overall Score.

Please Note: The overall score is calculated to several decimal places and then rounded. It is not possible for candidates to replicate this process.

Scores are reported as scaled rather than raw (number correct) scores. Scores are scaled by ACER to make them directly comparable from test to test. The scores provide sufficient discrimination between candidates to enable Ulster University to rank applicants in a meaningful and reliable way.

Ulster University will set their own HPAT–Ulster cut-off scores each year. These will be the minimum HPAT–Ulster scores acceptable for consideration by Ulster University.

Candidates will not be provided with any additional information on scores or the scoring process. All information remains the property of ACER and no right of inspection will be deemed to be vested in a candidate.

Withholding of results

You will only receive your HPAT–Ulster test scores if you have complied with the HPAT–Ulster test policies and procedures and these terms and conditions. Your scores may be withheld or cancelled if ACER learns, either on or after the test day, that you have violated the HPAT–Ulster test policies and procedures and these terms and conditions.

Validity of results

HPAT–Ulster scores are valid for two years. This means that candidates may apply for admission to Allied Health Professional courses at Ulster University up to two years after the date on which they sit the test. For example, results from the 2019 test will be valid for the purpose of application for admission to Ulster University in 2019 and/or 2020, but not in 2021.

There is no restriction on the number of times you may sit HPAT–Ulster.

Appeals

ACER will not enter into appeals against HPAT–Ulster results. Candidates are advised that HPAT–Ulster results are released only after careful calculation and extensive checking. Requests for remarking will not be considered.
